Prompt questions:

- What challenges may exist in implementing each deliverable? Which ones will require external feedback/approval? Which can be implemented immediately?
- What checks and balances/approval steps currently exist for ensuring that people adhere to policies that are already in place? (e.g., approval process for reimbursable travel) Are they effective? How are the existing policies enforced?
- How are new policies introduced? What kinds of training or informational sessions are effective and why?
- How will you ensure the policies and resources developed through URGE will be maintained and supported over the long term, e.g. through staff/student turnover?
What policies/ideas have come out of each week:
