This is a draft Resource Map for the FSU EOAS Pod at Florida State University. This was adapted from the “Sample Ph.D. Mentoring Plan” developed by Vashan Wright (Woods Hole Oceanographic Institution) and Karin Block (City College of New York and CUNY Graduate Center), License: CC BY-NC-SA 4.0. Some of these will be resources common to all and some will be questions for identifying specific resources based on needs/interests identified during initial meetings while implementing the mentoring plan.

**Deliverable Background:**
A sense of belonging is important to the health and success of individuals, so finding a community is a safety and career consideration. Introducing a new racially minoritized colleague (e.g., faculty, staff, students) to all staff and students is a proactive way to be inclusive, and can also reduce racial profiling and microaggressions. Establishing a supportive network may also require introducing new minoritized colleagues to various resources within the organization and broader community since these can sometimes be challenging to find.

The practice of creating asset maps of communities recognizes social capital and engages the public as people and not clients. This deliverable broadens the concept of an asset map into a resource map, which outlines existing resources that organizations, communities, and broader scientific communities have to support racially minoritized individuals. The resource map should list resources you have at your organization (e.g., diversity officer, counseling and psychological services, ombudsperson, affinity groups, and recurring events) and locally (e.g., meet-up/social/hobby groups, religious or spiritual communities, businesses like barbershops). Include resources outside of your community as well; supporting membership to groups like SACNAS, NAGB, AISES, and GeoLatinas can help foster meaningful connections to a broader network.

**Mentoring Plan:**
- Summary of the intent of the resource map and the plan for working with new hires/students for connecting them with resources that will be of most use to them.
- Individual/Group meeting expectations (interval/frequency, journal articles, presentations, manuscript reviews, manuscript revising/dealing with rejections, careers, media requests).
- Evaluations: rubric, frequency for advisor/committee evaluations, encourage self-evaluation and review long term goals and how to achieve them.
In addition to institutional and departmental policies and resources, lab groups should effectively communicate, discuss, and revise lab-specific policies as needed. The following are general resources and guidelines, however lab-specific procedures are often necessary to ensure the functioning of a lab (e.g. upkeep of certain instrumentation) or may change under certain circumstances (e.g. grant/abstract submission deadlines).

**Core Work Resources:**
- **Code-of-conduct:** link, all members must sign a code of conduct that addresses inclusivity and diversity, mental health, publications or outputs, social media use, working hours, and vacation.
  - Currently no known code-of-conducts being signed by graduate students, postdocs, or faculty through EOAS or FSU.
- **Communication plan and expectations.** E.g. how do members communicate with each other and what times are appropriate.
  - Communicate working hours, and if emails are sent outside of working hours, generally the expectation is that you can respond when it’s convenient to you.
  - Although there is no formalized intake policy, speak with your advisor to establish expectations.
- **Reporting Policy** - link, address issues related to insensitivity, harassment, exclusion, and what are the consequences (e.g. not everyone drinks alcohol, no “locker room” talk), provide additional contacts for reporting outside of advisor.
  - Link to report incidents of behavior happening in the Florida State University community: [https://report.fsu.edu](https://report.fsu.edu)
  - Consequences for misbehavior could result in the imposition of sanctions and dismissal or expulsion. This will be determined by the appropriate officials at the University, in accordance with applicable laws and university regulations, policies, procedures, and collective bargaining agreements.
  - EOAS DEI suggestion box at the bottom of this page: [https://www.eoas.fsu.edu/diversity/](https://www.eoas.fsu.edu/diversity/)
  - EOAS Departmental suggestion box: [https://www.eoas.fsu.edu/suggestion-box/](https://www.eoas.fsu.edu/suggestion-box/)
- **Equipment** - where to find, fund individual gear like hiking boots, fund or provide access to sufficient “library” of hiking/camping/outdoor equipment.
  - There is currently no list of gear available to faculty/staff/students on the EOAS website. We are also currently unaware of any shared equipment within the department. Equipment usually is shared within lab groups and gear may be funded by the leading faculty member of said lab groups.
  - Probably worth noting the Winchester Fund here as a number of students have supported travel and equipment from it ([https://www.eoas.fsu.edu/about-us/giving/winchester-fund/](https://www.eoas.fsu.edu/about-us/giving/winchester-fund/))
  - Rental of outdoor gear (e.g. sleeping bags, tents, backpacks) from Campus Rec. Will need to make rental reservations a week in advance and pick up gear at the FSU Rez (5 miles from campus).
  - Center of Global Engagement bank of personal goods?
- Conference and workshop participation (how often and who pays for it?). Be explicit about opportunities for this type of participation and at what point they will be expected to attend conferences.

  - Link to EOAS policy for faculty expectations: https://www.eoas.fsu.edu/wp-content/documents/about_us/aor.pdf
  - Conference and workshop participation is included within research activities, which should be 20% of a full professor’s total activity (research + teaching + service), 30% for an associate professor, and 40% for an assistant professor. No specific details are given as to how many meetings need to be attended and what type of participation is required. Serving as a program or session chair for conferences is included in service activities.
  - Generally faculty are required to pay for their own conference/workshop travel, but travel can be supported by grants or other awards.
  - Societies often (partially) fund travel to conferences, sometimes the deadlines are earlier than the abstract submission deadline.
  - OPDA Postdoc career development award. 2 deadlines/yr. https://opda.fsu.edu/fellowships-and-awards/travel-awards
  - For students, seems like 1/yr is fairly normal? Once the student has something to present (e.g. prepared/submitted manuscript)
  - Congress of Graduate Students conference funding for presenting students https://sga.fsu.edu/cogs-funding.shtml
  - Be open to considering proposed workshops/conferences, especially for groups like SACNAS, NABG, AISES, GeoLatinas, and others.

Discussion Questions:
1) What was your experience when you first joined your organization or moved to this location? What barriers were there when you first arrived and how did you overcome them?
2) How would someone new find their community in your location? What additional barriers may a person of color face in your community? Consider that Black, Brown, Indigenous, and people of color will face different challenges from one another.
3) What resources are available at your organization? What resources should be added?
