

Quaternary Research Center pod 2, URGE Deliverable 7: Mentoring plans

The pod thanks URGE for the continued excellence of the readings, and in the example deliverable provided, a comprehensive blueprint for mentoring and supporting students of color (and all students, for that matter). The pod's three participants in session 7 are one or more steps removed from policy-making at any university, but we foresee applications in each of our own areas of responsibility outside universities.

For further reading on coping mechanisms, the pod recommends "You'll never believe what happened to Lacey—Crazy stories about racism" (Grand Central Publishing, 215 p., 2021).
