

Quaternary Research Center pod 2, URGE Deliverable 8: Accountability

The pod concluded by setting a plan for diversity initiatives that was guided by the table in the URGE example. This plan forms part of a revised DEI package that three of the pod members will be presenting, for their approval, to the Board of Directors of the Northwest Scientific Association (<https://www.northwestscience.org/>).

The pod scheduled a follow-up Zoom session in October, 2021, to compare notes on progress and problems.
