

URGE Complaints and Reporting Policy

As a pod of geoscience faculty that operate alone or within extremely small programs at two-year colleges across the United States, we each have different situations at our 12 different institutions which does not enable us to submit one cohesive complaints and reporting policy appropriate for all of our locations.

For our final deliverable in the URGE program, a booklet to be shared across 2YC faculty and institutions in the geosciences with classroom and policy exemplars, we will include examples of complaints and reporting policies from several different 2YCs as items to review and consider for adaptation and/or adoption.
