

Session 1 Deliverable 2 – Agreement
 January 29, 2021
 Multiple Institute Faculty Pod

This deliverable is meant to establish communication between Pod members and the administration of our institutions. Members of this Pod are from five different institutions, and we are each reaching out to our administrations to (1) inform them of our participation in the URGE program, and (2) to plan for meetings to discuss actions that our institutions can take to improve accessibility, justice, equity, and inclusion. These are the individuals/committees we will communicate with:
