

HODGE (POD)GE OF CANADIAN GRAD STUDENTS POD

Deliverables IV

Answers are general for Universities of Alberta, Calgary, Saskatchewan.

Previous work:

- Field work conducted by our research groups at the UofC and the UofA (separately) have used local Indigenous consultants for bear safety when working in remote areas of British Columbia, Canada

Future work/ideas:

- Community outreach:
 - Do interviews on local radio stations
 - Write an article in the local newspaper
 - Give a lecture in a local school
- Hiring locals, either for bear safety (like previously done) or as local guides when looking for optimal locations for stations
- Consultation: when working with communities, discuss what they would like to see from the research
